4:00 PM. Public always welcome.

Announcements

FIREWORKS SAFETY

If you are setting fireworks off at home, follow these safety steps:

- Never give fireworks to small children, and never throw or point a firework toward people, animals, vehicles, structures or flammable materials. Always follow the instructions on the packaging.
- Keep a supply of water close by as a precaution.
- Make sure the person lighting fireworks always wears eye protection.
- Light only one firework at a time and never attempt to relight "a dud."
- Store fireworks in a cool, dry place away from children and pets.

Who We Are!

About Us...

At Leavitt Lake Community Services District, we are committed to providing safe, high quality water services to our community, while maintaining a standard of excellence in customer service and environmental conservation.

**LEAVITT LAKE
COMMUNITY
SERVICES
DISTRICT**

It is our mission to provide safe, high quality water and sewer services to our community.

Your home's wildfire safety buffer

Defensible space is crucial for your home's wildfire safety. It's the buffer zone you create between your property and the surrounding wildland area. This space is key to slowing or stopping wildfire spread and protecting your home from embers, flames, or heat. It also gives firefighters a safer area to defend your property.

Get Ready!

Being Ready starts with hardening your home and maintaining adequate Defensible Space around your home and property. Home Hardening means using ignition-resistant materials on and around your home to help it withstand flying embers and radiant heat. Defensible Space is the buffer created by removing dead plants, grass and weeds to help keep wildfire away from your home.

It takes a combination of Home Hardening and Defensible Space to give your house the best chance of surviving a wildfire

HOME IGNITION ZONE CHECKLIST

SIMPLE STEPS FROM ROOF TO FOUNDATION TO MAKE A HOME SAFER FROM EMBERS AND RADIANT HEAT

CREATE DEFENSIBLE SPACE

Actions to get you started:

- Create and maintain the required 100 feet of Defensible Space.
 - Cut or mow annual grass down to maximum height of four inches.
- Ensure all combustible materials are located 30 feet away from your home.

HARDEN YOUR HOME

Actions to get you started:

- Create and maintain the required 100 feet of Defensible Space.
 - Cut or mow annual grass down to maximum height of four inches.
- Ensure all combustible materials are located 30 feet away from your home.

Construction Corner

- **District-Wide:** Expect to see pothole road repairs made throughout the district. There are approx. 17 patches due to existing pothole / road cuts while accessing past water main breaks. The district plans to address all 17 location now thru September. Spring work will be considered. Weather permitted.

Work Zone Ahead:

Sure, construction zones are annoying and one of the leading causes of slow traffic. But isn't it nice to glide over a freshly asphalted , pot hole free road? You bet it is. Stay calm and alert while driving though road work and keep in mind how nice the finished project will eventually be.
