

Just a reminder, the \$10.00 surcharge will be sticking around for an addition 6 month, ending with your January 2024 billing cycle. At that time the surcharge will be revisited and decisions will be made in accordance to the district's financial status.

*(**This Surcharge is to accelerate the recovery of our financial status due to continued inflation.**)*

SERVICES
DISTRICT**

*It is our mission to provide
safe, high quality water and
sewer services to our
community.*

Defensible Space

Defensible space is the buffer between your structure and the surrounding area.

Adequate defensible space acts as a barrier to slow or halt the progress of fire that would otherwise engulf your property. It also helps ensure the safety of firefighters defending your home. Defensible space is the first line of defense for your home against wildfire.

The first five feet from your home is the most **important**. Keeping the area closest to buildings, structures, and decks clear will prevent embers from igniting materials that can spread the fire to your home.

Why? The majority of homes lost to wildfire are ignited by flying embers. Embers can travel miles ahead of the active front of wildfires.

What to do:

- Use **hardscape** like gravel, pavers, or concrete. No combustible bark or mulch.
- **Remove all dead and dying plants**, weeds, and debris (leaves, needles, etc.) from your roof, gutter, deck, porch, stairways, and under any areas of your home.
- **Remove all branches within 10 feet of any chimney or stovepipe outlet.**
- **Limit combustible items** (like outdoor furniture and planters) on top of decks.
- **Relocate firewood and lumber to Zone 2.**
- **Replace combustible fencing, gates, and arbors** attached to the home with noncombustible alternatives.
- **Consider relocating garbage and recycling containers** outside this zone.

Consider relocating boats, RVs, vehicles, and other combustible items outside this zone.

**** Feral Cats Wanted ****

If you have a “colony” of feral cats in your neighborhood, please contact the [Humane Society](#) for information on how you can help reduce the numbers by spay/neutering.

Mention:

Fixed Feral Community Cat program

Did you know?

*In seven years, two cats and their offspring can produce more than **420,000** cats!*

A queen can birth up to 4 litters every mating season, and each litter can have between two to eight kittens.

That's ~~she~~ow

ATTN: Pet owners, Please put a ID/Collar on your critters so they won't be mistaken for feral cats.
