LEAVITT LAKE
COMMUNITY
SERVICES
DISTRICT

It is our mission to provide safe, high quality water and sewer services to our community.

As we have been converting over to our new systems and learning them, we have been very lenient with the customers who have been past due. However, we have now started to charge the late fees and keep our customers accountable. If you are behind in payments, you need to contact the office immediately. If you cannot bring your account current, you need to commit to a payment arrangement plan. We can set it up in the office. Once you enter into the payment arrangement plan, the late fees won't be charged. But if you don't follow through with the plan, your service can be terminated with no further notice. Most of you know that the district runs mainly on the revenue generated through the payments received from the community. It is extremely important that payments be made in a timely manner so that the district can operate properly.

Rate Increase will be implemented as of 1/30/25. Due to our aging infrastructure, rising costs of operations and the permit and licensing fees. In office we have been doing our part to lower costs in order to save funds to be able to pay these costly invoices. This rate change is the 3rd increase of the 5 year rate schedule approved at the Public Hearing in October 2022. The new rate will be 121.48. The surcharge will be assessed based on a completed cost analysis, more information will be available soon.

Upcoming Board Meeting will be held on February 18th

All community members are welcome. We would love your involvement and feedback. Our board meetings are held at the Leavitt Lake Community Services District Office at 4:00 p.m. on the third Tuesday of every month. If we need to update a different date it will be posted on our website and our Face book page. We will also list our upcoming agenda on our website that is printable.

Leavitt Lake Community Services District has been working with the Air Pollution Control District in Lassen county attempting to obtain grant funds from the Carl Moyer Grant Program. We have been in desperate need of updated equipment to maintain the park. We received funds for a new blower, edger and a new zero turn lawn mower. The three items will help our staff tremendously. They are all electric.
