## DOGS STILL ROAMING THE COMMUNITY

We are not responsible for loose or aggressive dogs around the community. We will do what we can to inform the proper agency of the problem. However, as a pet owner, you should take responsibility for your animals and keep them securely fenced in.  
*See back page....*

## When a Water Line Breaks

Sometimes we have water lines break. In order for the district to repair those lines we first must call USA to dig.

They tell us when we can begin the repairs, which is after the electric company, the cable company and the phone company has marked where their lines are located.

It can take up to three or four days for the process to be completed in order for us to be able to repair the line.

We monitor the break and the water being lost very closely until we are able to make repairs.

When making the repairs we most often will have to turn the water off in certain sections. Once the repairs are made, we always ask that the customers -that did have their water shut off, to allow it to run for a few minutes before using.

## FLU EPIDEMIC

California is experiencing a severe flu epidemic. While the flu shots may not protect you from getting the flu they certainly will help you if you get the flu so that it may not

be as severe. If you haven't already had your shot, please get one. It takes about 2 weeks for the shot to work.

If you do become ill, please stay home. Don't go into

public where you could infect others. To prevent it from spreading wash your hands often and cover your mouth when sneezing or coughing.

**STAY HEALTHY**

## Pit-bull Dog Running In The Community

While I truly believe that pits have been given an undeserved bad reputation, sometimes they can be intimidating. There is a brindle colored pit running the streets and most people are extremely afraid of it.

If you know this dog or who it belongs to, please contact the owner and let them know that it is running around and needs to be confined to its yard.

## *What's Happening in the Community*

### **Board Meeting**

February's board meeting will be held on 2/20/18 at 4:00 PM in the district office.

### **AUDIT**

Each year we are required to have a complete audit conducted. The audit for the fiscal year ending June 30, 2017 is now complete and if you want to view it, please come in to do so.

### **New Park Sign Installed**

It has been many years since we have had a nice sign at the park. The last one was wooden and also had a really nice bulletin board encased with Plexiglas. It was destroyed the very first night it was installed by a neighborhood teen.

Jaime and Forrest made this new sign out of concrete in hopes it wouldn't be so easy for someone to destroy.

### **REMINDER**

When paying your bill by mail, make sure that the name on the account is the name on the check/money order or print it at the bottom. If you are paying for someone else, make sure their name is on the check somewhere or the account number.
