

# LEAVITT LAKE REPORTER

June 2018

## ONLINE PAYMENTS

Some customers have been asking if we are going to set up a system for online bill paying.

Actually if you want to pay your bill online, what you need to do is contact your own bank and set up the online bill pay account.

You then go

onto your computer and schedule payments to your creditors. Your bank then sends out a check to each creditor you scheduled.

We actually have several customers who pay their water bill this way.

For more information, contact

Time to pay bills!

your bank and they will explain how it works.

## TALL GRASS/WEEDS BECOMING FIRE HAZARD

There are several properties that have tall grass/weeds around their homes.

These places need to mow down the grass/weeds. They are drying out and are quickly becoming a fire hazard.

Don't be lazy and mow down on the outsides of the fences too!

Also mow under and around any stored vehicle in your yard

## NEW BOARD MEMBER SWORN IN

On June 19, 2018 at the board meeting, Dallas Langley was sworn in as the newest board member.

Dallas and his wife Kathy have lived in the district since the 80's. He has experience working with sewer and water

and we believe he will be a great asset to the board.

Remember the board meetings are on the third Tuesday of each month.

## More requirements for the District

District's are now required to make their state reports via the internet-for water and sewer.

We will also be having to use a specified website for the wastewater that allows the lab to enter all analytical data to our report (of course this will cost the district more money).

We also have to have the sampling sites re-surveyed to pinpoint the exact sampling point by longitude/latitude. And of course this will cost the district to have this done.

We are always receiving new requirements and each time it means the District has to pay just to meet these requirements.

## DID YOU KNOW?

**Our board meetings are held the third Tuesday of each month at 4:00 PM in the district office. Someone recently wanted to know why we weren't using the new shop building to hold the board meetings and the town hall meetings. The reason is we don't have enough people coming to our board meetings to warrant clearing out the equipment from the building.**

**We probably should have used it for the last town hall meeting, as there was standing room only in the office. The majority of people at the town hall meeting were NOT from the Leavitt Lake Community! Get involved with your community....attend the meetings!**

## SUMMER TIME HEALTH TIPS

During the winter months we all tend to "hibernate". And some of us tend to put on the pounds during winter.

Summer is a perfect time to shed those extra pounds and get fit.

With the warmer weather, we can get outside more and exercise. Walking briskly is an excellent way to get your heart rate up. But we

need to be cautious in the heat. Make sure you don't "overheat" and drink plenty of water. Staying hydrated is very important and drinking water also helps lose weight.

Summer means fresh produce. Make sure you take advantage of this.

One important thing is DISCONNECT

from the internet. Get away from the computer or phone. Don't allow your children to sit for hours in front on a game console/computer/phone. They need to be outside playing.

The US has the highest rate for obesity in children and adults.

Let's get active and shape up!
